A Direction for Growth

Assessing strengths is a critical step in the leadership development process. After all, you can't measure growth until you know where you stand. But it's by no means the final step. Think of this assessment as a compass that points you in the right directions for professional growth.

The next step is developing needs into strengths. Not sure where to start? Point your mouse online to our online Development Center. In it you'll find useful articles on a wide range of subjects from coaching employees to resolving conflict, and much in between. You can also review the Financial Knowledge-Basic v2.1 assessment questions, although, to protect the integrity of the assessment, correct answers are not provided online.

Mapping a Development Course

In addition to the KnowEDGE for Leaders Assessment, we provide the following developmental resources:

360 Degree Feedback -

This multi-rater assessment tool lets you collect confidential feedback from supervisors, direct reports, peers, and customers to identify strengths and needs as perceived by others. 360 Degree Feedback results can be combined with KnowEDGE assessment results to give the most complete Leadership assessment available.
